GREENLAND & WILD LABRADOR

AN EXCLUSIVE VISIT WITH PARKS CANADA
SEPTEMBER 23 – OCTOBER 7, 2017
This extraordinary sailing showcases staggering geographic diversity, from head of Sondre Stromfjord in Greenland all the way to St. John’s, NL. Covering over 2,200 nautical miles, our program will encompass four distinct Canadian National Parks and is designed for the appreciation of awe-inspiring landscapes, and to foster a deep understanding of the cultural connections to the land. We set out along the western coast of Greenland, calling at Nuuk, one of the world’s northernmost capital cities, and exploring one of the many fjords for which the area is famed. Across the Davis Strait in Canada, we visit the the stunning Torngat Mountains National Park. Here, at edge of the vast Canadian shield massive mountains tumble down to the Atlantic Ocean in one of the most dramatic seascapes in Canada. The Torngat Mountains National Park is the first and only National Park in Canada to be staffed completely by Inuit. Northern Labrador has to be seen to be believed—and we will do just that, via daily Zodiac expeditions and organized hiking.

As we move further south, we’ll visit the newly created Akami-Uapishk-KakKasuak-Mealy Mountains National Park Reserve, Canada’s 46th National Park. Encompassing 10,700 square kilometres, the park is the largest in eastern Canada. Crossing over to Newfoundland, we’ll pay our respects to North America’s Viking visitors at L’Anse aux Meadows. While in Newfoundland, we’ll call in at a outport community and explore Terra Nova National Park before ending our voyage in historic St. John’s.
HIGHLIGHTS

• Hike the pristine wilds of the Torngat Mountains National Park
• Search for polar bear and black bear along the rugged Labrador coast

FEATURED STAFF

DAVE PADDON
STORYTELLER / RECITATIONIST

Dave Paddon hails originally from Northwest River in central Labrador. He is descended from two generations of pioneer doctors/nurses who traveled the Labrador coast by dogteam in the winter and auxiliary ketch in the summer providing medical services and building the social infrastructure which was so badly needed at the time. Perhaps in a spirit of rebelliousness Dave chose aviation over medicine and flew fixed-wing aircraft as well as helicopters over the same territory in the late seventies and early eighties. He now flies for Air Canada and lives in St. John's with his wife Kim. Dave is well-known throughout the province for his recitations and stories.

MARIA MERKURATSUK
CULTURALIST

Maria was born in Nain, but raised on the land with her family. She obtained two diplomas in Social Work and Heavy Equipment. Maria teaches traditional and cultural values and holds workshops on cleaning and preparing sealskins, sewing of traditional clothing and crafts, and the Inuktitut language. She is a polar bear monitor in the Tornagat Mountains National Park and loves experiencing all of what life has to offer—especially out on the land.

TOM GORDON
HISTORIAN / MUSICIAN

Tom is a music historian, arts administrator, and inveterate wanderer. He has travelled Newfoundland and Labrador's coasts and trails since 1969, drawn back time and time again by its unforgettable landscapes and people. Over the last two decades, he has worked with the Inuit musicians along the Moravian coast to document their unique traditions on film and audio recordings. Tom was the director of Memorial University's school of music from 2000 to 2010, and is now Professor Emeritus.

DERRICK POTTLE
CULTURALIST

Derrick Pottle was born and raised in Rigolet, Labrador and lives a traditional Inuk lifestyle as a hunter and gatherer; he loves being out on the land. He still hunts and prepares caribou, seal, polar bear, fox, and wolf hides in the traditional Inuit way. He is a stone carver and is experienced in the challenges of long-distance travel in and around Nunatsiavut and Nunavik. While in town, Derrick teaches stone carving to students and adults, and has a company which teaches bear safety and traditional Inuit survival skills to the public. Derrick is a husband, father of two, and has three grandchildren.

DETAILED ITINERARY

DAY 1: KANGERLUSSUAQ, GREENLAND

After our flight from Toronto, we will embark the Ocean Endeavour and make our way down spectacular Sondre Stromfjord, for a chance to experience its beauty. Sondre Stromfjord is one of the longest fjords in the world and boasts 168 kilometres of superb scenery! Kangerlussuaq, the town at its eastern head, means ‘the big fjord’.

DAY 2: QEQQATA KOMMUNIA

There are a number of charming fishing villages along the west coast of Greenland. Depending on timing and sea conditions, we will call in at one of these communities to experience small town Greenlandic life, or we may navigate into the stunning fjords that line the coast. This is a day in the true spirit of expedition travel and we will avail ourselves of any and all opportunities that present themselves.

DAY 3: NUUK

Welcome to Nuuk, the capital of Greenland and the world’s northernmost capital city! Nuuk means ‘the headland’ and is situated at the mouth of a gigantic fjord system. Established as the first Greenlandic town in 1728, Nuuk remains the bustling centre of the country today. We have the chance to spot humpback whales in the fjord, reindeer roaming the land, and birds soaring above. The town itself is home to the University of Greenland, a cathedral dating back to 1849, and Greenland’s National Museum. We’ll have a guided orientation of this bustling metropolis and an opportunity to visit the National Museum where the Qilakitsoq mummies are housed before free time to explore on your own.

DAY 4: AT SEA — DAVIS STRAIT

Our presentation series continues as we head across the Davis Strait towards landfall in Canada. While out on deck keep your eyes peeled for minke and humpback whales (and other marine mammals), as well as the seabirds that are sure to mark our passage.

DAY 5: KANGIQSUALUJJUAQ (GEORGE RIVER)

In the shelter of a commanding granite rock outcrop we find the easternmost community of Kangiqsualujjuaq. Twenty-five kilometers upstream from Ungava Bay, the ebb and flow of the tides define the summer lives of the people and fauna of this area. Arctic flora thrives in the protected valley. The traditional calving grounds of the critically declining George River caribou herd are nearby. After our welcome back to Canada, we will have the freedom to explore the community, meet with locals and strike out of town for a hike on the tundra.

⚠️ This is our proposed itinerary. It is highly probable that weather, ice conditions, and unforeseen circumstances will not allow us to travel this exact route. Our Expedition Leader and the ship’s captain will determine our exact route day by day.

DAYS 6–8: TORNGAT MOUNTAINS NATIONAL PARK

The Torngat Mountains have been home to Inuit and their predecessors for millennia, with archaeological evidence reaching back almost 7,000 years. The fjords here reach deep into the heart of the mountains, bounded by cliffs peaking at 1,700 metres, the highest point of land in Labrador. The rugged, spectacular beauty of the Torngat Mountains underscores their role as the spiritual homeland of Nunatsiavut.

The Torngat Mountains comprise some of the oldest rocks on the planet and provide some of the best exposure of geological history. Polar bears, caribou, falcons, and eagles are among the species hardy enough to make their homes here. We’ll spend our time here getting out on the land for hikes, searching for wildlife, visiting archaeological sites, and Zodiac cruising through some of Canada’s most dramatic landscapes.

DAY 9: HEBRON

In a highly controversial move, the former Moravian Mission station dating from the 1830s was abandoned in 1959 with the departure of the Moravians, forcing the relocation of the Inuit who resided there. In 2005, Newfoundland and Labrador Premier Danny Williams apologized to people affected by the relocations. In August of 2009, the provincial government unveiled a monument at the site of Hebron with an inscribed apology for the site closure. Today, some of the buildings at Hebron are being repurposed as a cultural interpretation centre and it is these buildings that we will be visiting. They form a lonely monument to the cultural past of the area, with hopes for the future of Nunatsiavut.

DAY 10: NAIN

Today we explore the vibrant Inuit community of Nain. The administrative capital of Nunatsiavut Nain is the most northerly community in Labrador. We’ll visit the Moravian Church, the Nunatsiavut Building with its Labradorite stone and the newly finished Torngâsok Cultural Centre. Local leaders will share the fascinating history of the township, and we will have a chance to visit with the community.

DAY 11-12: LABRADOR COAST

The lower Labrador coast boasts five of Labrador’s ten provincial eco-regions, including coastal barrens, high subarctic tundra, high boreal forest, mid boreal forest, and string bog. The Mealy Mountain range in this area reaches heights of more than 1,000 metres. A significant portion of the mountain range and surrounding area has been designated a National Park Reserve, a move which follows lobbying for the preservation of the area since the early 1970s. Our intent is to land our Zodiacs at the Wonderstands, a stunning 56 kilometer stretch of beach, referenced in Viking sagas.

This is our proposed itinerary. It is highly probable that weather, ice conditions, and unforeseen circumstances will not allow us to travel this exact route. Our Expedition Leader and the ship’s captain will determine our exact route day by day.
DAY 13: L’ANSE AUX MEADOWS

A UNESCO World Heritage Site and National Historic site, L’Anse aux Meadows is the only authenticated Norse settlement in North America. The archaeological remains found here in 1960 date to approximately 1000 AD. Amazingly, the location of the ruins was first established by a close reading of the Viking sagas.

Today, a superb interpretive centre and reconstructions of the several Norse-style sod buildings make L’Anse aux Meadows a must-see for any visitor to Newfoundland.

DAY 14: TERRA NOVA NATIONAL PARK

Today we call in at Newfoundland and Labrador’s first national park, Terra Nova, located in beautiful Bonavista Bay. Our approach course will wind through the small islands that do the route and the occasional icebergs that drift in from the Atlantic. Once ashore, we have a variety of hiking opportunities in the park, where we hope to observe some of the black bears, osprey and moose that call the park home.

DAY 15: ST. JOHN’S, NL

Sailing into St. John’s has to be experienced to be believed; Signal Hill keeps watch over the world-famous Narrows where icebergs are frequently seen. The bustling city of St. John’s with its colourful houses and steep streets makes a spectacular backdrop to the legendary rot where we will bring our journey to a close.
The Ocean Endeavour is the perfect vessel for expedition cruising. Outfitted with twenty Zodiacs, advanced navigation equipment, multiple lounges, and a top deck observation room, she is purpose-built for passenger experiences in remote environments. The Ocean Endeavour boasts a 1B ice class, enabling her to freely explore throughout the Arctic summer. Launched in 1982, she has had numerous upgrades, most recently in 2015.

At 137 metres in length, the Ocean Endeavour has plenty of interior and exterior space. Ample deck space offers comfortable lounge chairs, a swimming pool, a sauna, and even a hot tub! The spacious interior allows for varied workshops and presentations to occur simultaneously.

The three lounges aboard the Ocean Endeavour are optimal locations for seminars, events, parties, and conversation.

The Ocean Endeavour’s accommodations are stylish and comfortable. All cabins have private washroom facilities, a phone for internal calls, TV, and temperature control. There are a variety of cabin categories available ranging from 9–30m² (90–300ft²).

The Ocean Endeavour’s crew is experienced and friendly. The ship’s shallow draft and manoeuvrability allow her to access isolated fjords, bays, and secluded communities. Enjoy the class and comfort of a boutique hotel while venturing to some of the world’s last great frontiers aboard the Ocean Endeavour!

Adventure Canada is celebrating thirty years of exploring the world’s wildest and most remote places in comfort and style aboard our ice-class expedition vessels—an experience not offered by giant cruise ships. Here’s why our small ships make all the difference:

1. More Up-Close Encounters — Because of their maneuverability and shallow drafts, small ships can navigate narrow rivers, secluded coves, and ice-strewn fjords with ease. These are the places where wildlife thrives and local culture is at its best!

2. Smaller Groups — With small ships come small group sizes, fast shore transfers, and intimate presentations. Small groups mean flexible itineraries, adaptable responses to wildlife sightings, and personalized programming. With an average of one staff member for every eight passengers, our team is poised to help you make the most of your shipboard experience.

3. Likeminded Travel Companions — Over the years, we’ve found one common element among our guests: a thirst for knowledge and adventure. Many of our passengers form lifelong friendships and our trips are often the site of reunions for people from all over the world! Small ships encourage interaction and camaraderie.

4. Better Onboard Experiences — In addition to a full onboard presentation and entertainment schedule, we offer a wide range of lively shipboard activities. Guests choose which elements of the program they want to participate in—and we always provide options. A small ship means community!

5. Authenticity — Forget casinos and shopping malls; small ship cruising is about experiencing destinations up close, with the help of regional experts. Local culture, art, music, and knowledge thrive aboard a small ship, where friendships form quickly and each expedition develops its own living character.
Once again in 2017, we will be aboard the *Ocean Endeavour* for our summer season. This ship is designed for passenger comfort, and ice-strengthened for safety in Arctic waters.

The hardworking crew greatly enriches our onboard experience and understand the unique needs of expedition travel; they give their all to make your adventure perfect.

Life aboard an expedition vessel is fun, engaging, and exciting. We pride ourselves on an unparalleled mix of discovery, learning, and fun. Above all, our expeditions are adaptable. That means that you choose the programming that most appeals to you. With lively talks and presentations, trivia nights, evening concerts, sing-alongs, theme dinners, and dances, there’s certainly no shortage of things to do!

Join our expert resource staff for a variety of workshops, from photography seminars to print making to Inuktitut lessons. Had enough of talks and presentations? Had enough of talks and presentations? Head ashore and explore on your own with our fleet of Kona mountain bikes!

Enjoy the onboard spa, pool, and hot tub; get the blood flowing in the health club and gym; enjoy a therapeutic massage or a quiet sauna after a day out in the Zodiacs. Top it all off with unbeatable gourmet food.

Stay up to date with the expedition goings on through daily multimedia recaps, and take a trip to the well-stocked shipboard library for some informal discussion and personal reflection.

Travelling aboard the *Ocean Endeavour* is an experience like no other: all the comforts of a boutique hotel, at sea in some of the world’s most remote environments!

All cheques must be made out to Adventure Canada and MAY NOT BE CANADIAN CHEQUES MADE OUT TO USD; ask your bank for information on foreign currency. Full payment by credit card is subject to credit card pricing.

ITINERARIES

Weather, ice, and government regulations may necessitate changes to the itineraries and/or the cancellation of certain shore excursions. Every attempt—within the limits of law, time, and safety—will be made to adhere to the itineraries described. There may be a planned alternate for your route: please inquire at the time of booking. In the event of itinerary changes, passengers are not entitled to any refund or other compensation. Should the tour be interrupted for any reason repatriation costs and expenses relating to prepaid travel expenses will be at the sole cost of the traveler. There will be no refund for any portion of the tour already taken. Adventure Canada recommends that the passenger obtains full travel insurance coverage and purchases refundable air/train tickets. Expedition fees are based on group participation. Should you choose not to take part in any activity or make use of services provided, no refund will be given. Vessels and dates are subject to change.

SINGLE TRAVELLERS

On the Ocean Endeavour, single travellers willing to share their accommodation will be guaranteed the published rate even if a roommate is not available in categories one through seven. There are a limited number of single-occupancy cabins available in categories three through seven with no single supplement charge. A single supplement charge of 1.5 times the published rate will apply when single cabins are not available. Single Supplements are available on our Antarctica voyage aboard The Hebridean Sky at 1.7 times the published rate.

PRE-DEPARTURE INFORMATION

Prior to your expedition we will send you a pre-departure package including a statement of account, login details for your online profile, a handbook of practical guidelines, a briefing (on local history, flora, and fauna), a reading list, and packing suggestions.

ONLINE PROFILE

Adventure Canada collects personal information from our passengers via secure online account. You are required to provide select medical and personal information, as well as acknowledgement of select liabilities. Online accounts are established by booking reservations. This means that all passengers on a given reservation will have access to each others’ information. You will be asked to acknowledge this process on our reservation form by checking the box ‘I/we agree that all passenger details will be viewable by all persons on this registration/reservation’. If you prefer to have individual access to the online account please do not check this box on the reservation form and advise your Adventure Specialist by phone or email. If you prefer to provide your personal information to Adventure Canada by mail or fax, please contact us and we will send you paper copies. We ask that your personal information be completed at your convenience, but no less than 120 days prior to departure. You will not receive your final documents until these forms are completed and submitted.

PASSPORTS & VISAS

Passports are mandatory and must be current, with a date of expiry at least three (3) months after the trip’s conclusion. Participants are responsible for obtaining personal visas, passports, health certificates and other required documents and inoculations at their own expense. Entry to another country may be refused even if the required information and travel documents are complete.

ACTIVITY LEVEL

Adventure Canada expeditions are intended for people in reasonably good health. Zodiac cruises and transfer times can be lengthy. You must be able to climb stairs between decks on the ship. You must also be able to climb the external gangway stairs to transfer between the ship and the Zodias. Our guides and ship crew are available to assist you in and out of the Zodias,
both on shore and at the gangway. Adventure Canada expeditions may involve extensive walking in variable weather conditions over sometimes sandy or uneven terrain. Wherever possible on shore excursions, we break into smaller, guided groups according to interest and physical ability. This may mean one small group going off on a strenuous, two hour hike on steep terrain, while another explores the area in and around the landing beach, keeping to relatively level terrain and short distances. Generally speaking, once a few people are ready to return to the ship, the Zodiacs are usually available to take you back at the time of your choosing.

ZODIAC CRAFT
Zodiacs are the favoured means of transportation for all our expeditions and, indeed, wherever shallow waters and beaches ring the shoreline. They are stable, versatile craft that cruise at approximately four knots; in windy weather they can make for rather splashy rides. We therefore recommend wearing wet weather gear for Zodiac transfers. Life preservers are absolutely compulsory and will be provided. Zodiac landings will generally entail disembarking onto rocky or gravelly beaches. The beach landings may be wet, meaning that there may be some spray en route to shore, and that you may have to step into water up to 25 centimetres / 10 inches deep. Rubber boots will be provided.

MEDICAL FACILITIES
This expedition is intended for persons in good health. Passengers who are not fit for long trips for any reason, including disability, heart, or other health conditions, are advised not to join the tour. Should any such condition become apparent, we reserve the right to decline embarkation. Our vessel is not equipped to handle serious medical conditions. Medical and Emergency Evacuation insurance is mandatory. A ship’s doctor will be in attendance in the ship’s small medical clinic to attend to passengers’ basic health needs. If you require specific medications, please ensure that you bring a supply adequate to last you for the duration of the journey and take care to properly pack them to ensure safe transport. Once aboard ship, we will be travelling in remote communities where prescriptions cannot be replaced. There is a fee for consultation and treatment by the onboard doctor. Any charges will be debited from your onboard account.

GRATUITIES
Our ships’ crew work hard to please, and tips are heartily appreciated. In fairness to all those who work together to make your trip enjoyable, tips are collected at the end of the voyage and distributed equitably among the crew. Although we leave tip amounts to your discretion, past passengers have asked for a recommended amount. We suggest a rate of $15 USD per day, per passenger. Gratuities will be automatically added to your shipboard account: you may advise the purser onboard if you would like to increase or decrease the tip amount. Adventure Canada staff does not accept tips.

AIRFARE
When purchasing your airline tickets to meet us at our point of departure, please ensure that they are changeable or refundable; Adventure Canada is not responsible for missed connections due to late charter flights or changes / delays / interruptions in the ship’s intended itinerary and will not reimburse you for rebooking fees or new ticket charges incurred.

In accepting these terms and conditions, the passenger is agreeing that these terms and conditions shall also serve as the Passage Contract Ticket. Adventure Canada is a wholesaler of the Hebridean Sky. You will receive a separate Passage Contract Ticket upon booking our Antarctic Expedition.

The passenger hereby waives any claim it may have against Adventure Canada, its owners, officers, directors, agents, contractors (including, without limitation, the carrier) and employees shall have any liability or responsibility whatsoever for damages to or loss of property, loss of services, or injury or wrongful death or any other loss, expense, damage, delay or inconvenience which may be sustained or which may be incurred by reason of, or while engaged on, any Adventure Canada tour, whether due to Adventure Canada or the carrier’s ownership, maintenance, use, operation or control of any manner of conveyance used in carrying out the tour; (ii) the use of transportation or other services of carrier, owners, operators, or public carriers for whom Adventure Canada acts only as agent and for whom Adventure Canada is not responsible; (iii) passenger’s lack of proper travel documentation (such as visas, passports, etc.); (iv) any act, omission or event occurring during the time that passengers are not aboard Adventure Canada carriers or conveyances; (v) any act of war, insurrection, revolt or other civil uprising or military action occurring in the countries of origin, destination or passage, or changes caused by sickness, weather, strike, quarantine or other causes beyond the control of Adventure Canada or carrier or (vi) defects or failures of any aircraft, vessel, automotive vehicle or other equipment or instrumentality under the control of independent suppliers. If for any reason, Adventure Canada is ever found liable for any matter, Adventure Canada’s maximum liability, for any reason whatsoever, will be limited to the amount paid to Adventure Canada for its services. Without limitation, Adventure Canada is not responsible for any negligent acts, acts which are beyond its control, including but not limited to acts of God or force majeure, weather emergencies, breakdown, or failure of diving or mechanical equipment, government actions, inclement weather, sickness, attacks by animals, availability of medical care or the adequacy of the same, criminal activity of any kind, terrorism, war, civil disturbance, sanitary conditions, quality or sanitation of food, quarantine, customs, regulations, epidemics, strikes, hotel overbooking, safety and/or security standards at hotels or other accommodations, or for any other reason beyond the control of Adventure Canada.

The passenger hereby waives any claim it may have against Adventure Canada, its owners, officers, directors, agents, contractors (including, without limitation, the carrier) and employees for any such damage, loss or injury. Adventure Canada acts only as agent for all services described herein. Adventure Canada and its sponsoring organizations do not assume any responsibility or liability whatsoever for any claims, damages, expenses or other financial loss related to the operation of this tour.

The passenger specifically understands and agrees that the passenger is releasing, discharging and waiving any claims or actions that the passenger may have previously or in the future for the negligent acts or conduct of Adventure Canada, its owners, directors, officers, employees; agents, contractors (including, without limitation, the carrier) and/or employees.

Regardless of the situation or circumstances giving rise to a claim, the passenger waives any right to seek indirect, special, consequential, punitive or exemplary damages against Adventure Canada, its owners, officers, directors, agents, contractors (including, without limitation, the carrier) and employees, for any reason whatsoever.

On tours which neither embark, disembark nor call at any port in the United States, Adventure Canada and the carrier shall be entitled to any and all liability limitations, immunities and rights applicable to it under the “Athens Convention Relating to the Carriage of Passengers and their Luggage by Sea” of 1974, as well as the “Protocol to the Athens Convention Relating to the Carriage of Passengers and their Luggage by Sea” of 1976 ("Athens Convention"). The Athens Convention limits the carrier’s liability for death or personal injury to a passenger to no more than 46,666 special drawing rights as defined therein (approximately U.S. $70,000). In addition, and on all other tours, all the exemptions from and limitations of liability provided in or authorized by the laws of the United States (including title 46, United States Code Sections 30501 through 30509 and 30511) will apply.

DISCOVERY FUND
We believe in sustainable social and environmental practices, and commit to upholding standards of responsible travel. We encourage our partners to do the same.

In 1993, Adventure Canada established the Discovery Fund to help strengthen sustainable initiatives and projects in the regions to which we travel. Supported by a $250 USD fee added to the price of each tour sold, the Discovery Fund allows passengers to take an active role in the betterment of our world.

The Discovery Fund directly assists local and national organizations in social and economic community development in addition to environmental and wildlife preservation. Each year, we endeavour to extend our support to both high profile and grassroots ventures. By travelling with Adventure Canada, you are helping ensure that our planet’s irreplaceable treasures will endure for generations to come!

Thank You!
